Forecast For Yorkshire & the Humber
Issued by Met Office Exeter
at 1600 on Tuesday 16 Feb 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Largely clear tonight. Early rain clearing to sunshine on Wednesday.

This Evening and Tonight:
A few residual showers soon clearing east to a dry and largely clear evening, with only patchy low cloud. Becoming increasingly cloudy and windy later in the night, with outbreaks of rain spreading east before dawn. Minimum temperature 3 deg C (37 deg F).

Wednesday:
A cloudy start with outbreaks of rain clearing east soon after dawn. Remaining breezy though becoming largely dry and sunny, before further rain arrive from the southwest early evening. Maximum temperature 11 deg C (52 deg F).

Outlook for Thursday to Saturday:
Changeable and often windy with rain possible each day. Some bright or sunny interludes. Generally mild but briefly colder on Thursday night, with patchy frost and perhaps hill snow.
